- M-4. To make competent students for higher studies at Global level and to develop entrepreneurial abilities in order to improve their employability.

DIRECTOR'S MESSAGE

Prof. (Dr.) Sunita Singh

We are in the World which is facing revolutionary change, uncertainty and inevitable interconnectedness, hence there is a responsibility of a higher education sector not only to produce knowledge but provide solutions to persistent and complex socio-economic problems of our times.

As a fast emerging IES Institute in Central India, IES Institute envisions a global education for our students by inspiring knowledge seekers to connect, collaborate, innovate and achieve the desired progress.

WORLD PHARMACIST DAY

IES Institute of Pharmacy celebrated World Pharmacist Day on 25th of Sept. Theme for this year was "Safe and Effective Medicine for All". Students participated in model making, poster making, rangoli making with health care message and also cultural activities. Pharmacy students actively participated in all activities including a blood group check camp, counselling on diet, personal hygiene, Blood Pressure and pulse rate check ups. A seminar on organ donation was also organised with a message to society by our pharmacy students.

Intra Rangoli Competition with Pharmacy Theme.

PLANTATION DRIVE

Plantation drive was initiated by pharmacy students in their herbal garden and across the college premises where students planted trees as a impressions and memories of their time spent, with the awareness drive of "Plant more trees to make life long".

on "Gender Inequality challenges in Science & Education" @IOP:

The Live International webinar was organized at IES Institute of Pharmacy on 26th November 2020. The Chief Guest of this webinar was Mrs. Jayshri Kiyawat (IAS) commissioner Directorate of public instruction, Govt. of MP, Guest of Honor was Dr. Vimal Rah Project head & Joint director GAD-TLC ministry of education, New Delhi and Dr. Preeti K. Suresh professor and dean, University Institute of Pharmacy, Pt. Ravishankar Shukla University, Raipur C.G., Eminent Panelists Dr. Neha Tabassum teaching and Scientist research fellow, Cancer Genetics Group, Deptt. Of Surgery & Cancer Imperial college of London(UK), Dr. Shruti Rathore Principal LCIT school of Pharmacy, Bilaspur(C.G.) and Dr. Sapna Malviya head, Department of Pharmacy Modern institute of Pharmaceutical Sciences, Indore.

In educational institutions, gender inequality has been experienced. Millions of girls and young women across the world still face huge barriers to education. They told how can their success be replicated to ensure that young people everywhere have the human right to education and we empower girls to the benefit of everyone. He explain the barriers to education like Poverty, Unsafe road, Lack of security in schools, A tradition and culture etc.

Gender Inequality in education is a persistent problem within the Indian society, especially for the girls, belonging to economically weaker sections of the society. They also talked about the women's rights in education.

The keynote address was given by Dr. Neha Tabassum. She described the work of the CWSEM, which seeks to understand the complex social and cultural factors that influence the equity of women in research globally and is working to remove barriers and create supportive institutional environments to achieve gender equity.
